Bikesh Rajbhandari

Software Engineer

Talented software development professional with experience in web applications. Consistent in delivering clean, error-free, reliable code to meet current or expected needs. Well-versed in software trends and confident in multiple languages, frameworks and programming tools.

Adaptable software engineer with extensive experience providing first-class results. Meets job demands and deadlines through diligent work-ethic and dedication to quality. Responsible individual, passionate about delivering outstanding quality and service. Offering 1 year of experience in industry with history of recognition for performance.

Experience

2021-2022

Deerhold Nepal, Kathmandu

Software Engineer

- Used working knowledge of Agile frameworks to continually enhance software development.
- Performed thorough testing on new modules, assessing performance against department standards.
- Analyzed and learned different programming languages to quickly resolve complex programming issues.
- Demonstrated exceptional working knowledge of PHP, Laravel, Python, Django, Django Rest Framework, JavaScript, jQuery, Vue.js, SQL, PostgreSQL, HTML, CSS etc.
- Co-operated with designers, QAs and other fellow developers on identifying both the interface and code level issues.
- Worked on multiple projects ranging from US health care products to blogging sites and ecommerce.

Projects Done

- **Everest Uncensored** link: <https://everestuncensored.deerhold.com/>
This is a blogging site made in Laravel. I got familiar with Laravel in this project.
- **Gloktchn** link: <https://gloktchn.com/>
This is an online food ordering system made completely in Laravel where I got a chance to nurture my Laravel skills as well as build my JavaScript and jQuery skills.
